WHICH INVICTUS® LUXURY VINYL FLOOR SHOULD I CHOOSE?

Invictus® luxury vinyl flooring has many options to choose from, in five ranges: Invictus® Ultimus, Maximus, Maximus Click, Primus and Primus Click. The best choice for your home? It all depends on both your design dreams and installing preferences.

INVICTUS® ULTIMUS, MAXIMUS AND PRIMUS ARE DRYBACK LUXURY VINYL FLOORINGS

Invictus® Dryback luxury vinyl flooring comes in three ranges:

- 1 **Invictus® Ultimus** stands for luxury vinyl planks and tiles with a 0.70mm wear layer. They offer exceptional durability and protection, making them ideal for the most demanding commercial environments and refined residential spaces.
- 2 **Invictus® Maximus** consists of luxury vinyl planks and tiles with a wear layer of 0.55mm. They offer excellent wear resistance and durability, which makes them suited even for heavy commercial use such as care, hospitality, office and retail.
- 3 **Invictus® Primus** stands for luxury vinyl planks and tiles with a wear layer of 0.30mm. They offer excellent value for money and are designed to effortlessly withstand the challenges of daily family life.

The advantages of Invictus® Dryback luxury vinyl flooring:

- ✓ It is the **professional installer's premium choice**. Whether consisting of wood design planks or stone look tiles, Dryback flooring will offer a **superb performance** for many years to come. The floor is glued **directly to the subfloor**, resulting in **exceptional dimensional stability**.
- ✓ No decorating wish remains unfulfilled: **create original patterns** or add embellishments like **feature strips** for a tone-on-tone or contrasting grout effect. The result is a stunning floor in either wood or stone design, that will have you look twice.
- ✓ Dryback flooring is the **ideal solution** for installing on top of an existing floor. Installation of the planks and tiles on a leveled floor is **easy, dust free** and does not require the use of specialized tools: a utility knife is all you need. And no need to adapt the doors: because of its **limited thickness**, your new floor will easily fit underneath.

WHICH INVICTUS® LUXURY VINYL FLOOR SHOULD I CHOOSE?

Invictus® luxury vinyl flooring has many options to choose from, in three ranges: Invictus® Primus, Primus Click, Maximus and Maximus Click. The best choice for your home? It all depends on both your design dreams and installing preferences.

INVICTUS® CLICK IS A RIGID CLICK LUXURY VINYL FLOORING

Invictus® Click is luxury vinyl flooring to be installed using the click system. The outstanding rigid material of Invictus® Click is a far cry from seemingly similar but lesser quality products, and therefore guarantees an unseen level of dimensional stability.

The advantages of Invictus® Click luxury vinyl flooring:

- ✓ Thanks to its **high locking strength** and **dimensional stability**, it is a favourite with **professional installers and DIY enthusiasts** alike. The click system makes the rigid wood design planks and stone look tiles **easy to install** – and to remove, should you wish to reuse your floor elsewhere. Installation does not require the use of specialized tools: a utility knife is all you need.
- ✓ With Invictus® Click planks or tiles, **minimal subfloor preparation is needed**. The rigid material is very forgiving and can be installed over certain types of existing floors, hiding tile joints and most imperfections such as cracks and high and low spots. The result is a perfectly smooth surface.
- ✓ Invictus® Click has an **attached underlay**, which offers an **excellent noise reduction (20 dB)**. On top of that, the underlay helps even out subfloor imperfections.
- ✓ Invictus® believes in **sustainability**: Click planks and tiles contain more than 20% of recycled production waste, reducing the need for raw materials
- ✓ There's a **100% matching scotia** for each Invictus® Click design. Each scotia is made with the same luxury vinyl flooring material as used for the planks and tiles, resulting in a perfect colour match. It will not only cover the necessary expansion gap but also adds an elegant finishing touch.

No hassle, no waiting time ... Installing Invictus® luxury vinyl flooring is quick and easy, and dust free on top of that. The best guarantee for an impeccable Invictus® floor is to have it installed by a professional. Your preferred retailer will be glad to advise you and will make sure that the appropriate installing conditions are met. If you wish to rely on your own DIY skills, choose Invictus® Maximus Click.

Before installing Invictus® luxury vinyl flooring:

- ✓ With Invictus® Primus or Maximus, it is crucial to check the condition of the subfloor. Cracks should be filled, and bumps sanded. Another option is to install a plywood underfloor to obtain a perfectly even surface. When installing Invictus® Maximus Click, you may skip the preparation of the subfloor. The rigid click planks or tiles will hide tile joints and most imperfections.
- ✓ For commercial use, you may enhance the inherent acoustic benefits of your Invictus® Maximus floor with an extra underlay. No need for an underlay with Invictus® Maximus Click: it already has an underlay attached to the planks and tiles.
- ✓ Allow 48 hours for the Invictus® planks or tiles to acclimate before installation. Stack the packs horizontally on top of each other in the room the floor will be installed in.
- ✓ When installing Invictus® flooring on underfloor heating, please refer to the technical information sheet for detailed instructions.

Installing Invictus® luxury vinyl flooring:

- ✓ Mixing planks or tiles from different packs is your best guarantee for a harmonious look in design and colour on the entire floor.
- ✓ Invictus® Primus and Maximus are Dryback floors, to be glued down. Your retailer will select the best fitted glue for your floor.
- ✓ Invictus® Maximus Click planks and tiles are rigid and have an integrated click system, for easy installing without the use of any adhesives. Because it is a floating floor, you should allow an expansion gap of 5/16" near all walls. A 100% matching scotia glued to the wall will cover the gap.

INVICTUS® FLOOR CARE KIT

Keep your Invictus® luxury vinyl floor in mint condition

All you need to keep your Invictus® luxury vinyl floor in mint condition for years to come, is one small box: **The Invictus® Floor Care Kit.**

Right after installing

You may want to unpack the Starter Pack right away and take out the Invictus® PU cleaner to eliminate all traces of the installing. We advise you to also use Invictus® Floor Mat to apply an extra matt anti-slip protective finish.

Regular cleaning

The Invictus® Starter Pack is ideal for regular cleaning. When mopping the floor – remember, it is waterproof –, make sure to dilute some Invictus® PU Cleaner in the water. It will remove all traces of daily family life, like dirt and shoe marks, without leaving any residue. To quickly refresh your floor, use diluted Invictus® Floor Mat.

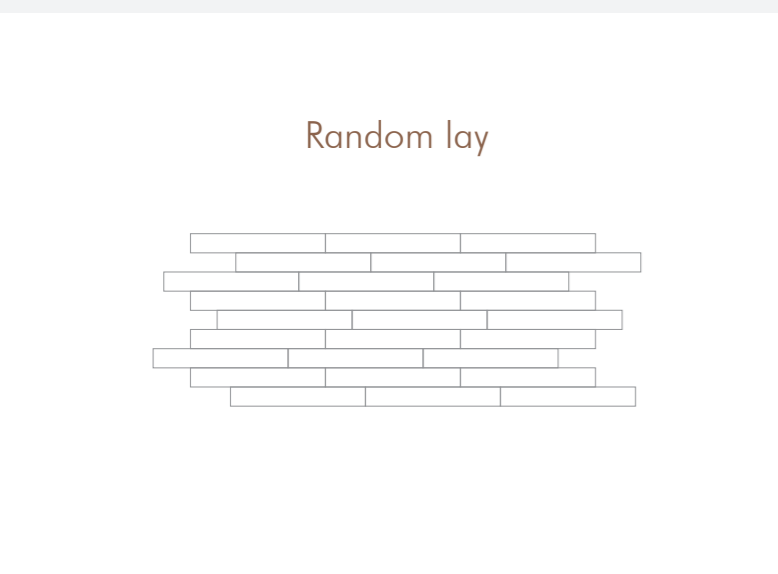

Tips & tricks

With Scratchmaster®, there's little risk of scratching your Invictus® floor. Still, you can further minimize the risk: fit your furniture and chairs with the gliders available in the Starter Pack, and lift instead of dragging when moving furniture. To avoid staining – even if unlikely – it's a good idea to wipe away spills as soon as they happen.
